

Fountain Flavor Liquid Beverage Flavorings

OliveNation Fountain Flavors are concentrated liquid flavors that impart both taste and color. Designed for no-heat applications such as ice cream, beverages, frostings, and icing, these versatile flavoring agents can also be used in baked goods. Our water-soluble liquid fountain flavors are easily added to commercial ice cream makers, soda machines, or blenders to create delicious, colorful beverages, frozen treats, and no-bake toppings and desserts. OliveNation Fountain Flavors range from “classic” flavorings such as butterscotch, French vanilla, and fruit flavors to delicious combination flavors such as cotton candy, cookie dough, and red velvet cake.
